MD ARIF ALI

FULL-STACK SOFTWARE DEVELOPER

Chandigarh, India | dev.arifali@gmail.com | linkedin.com/in/arifali2904 | github.com/Er-Arif | arifali.me

PROFESSIONAL SUMMARY

Computer Science graduate and full-stack developer building secure web applications, backend services, and AI-assisted workflows with React/Next.js, FastAPI/Node.js, and PostgreSQL. Hands-on experience with REST APIs, JWT authentication, client-side encryption, background jobs, payment integration, automated testing, and Docker.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, C++, SQL, PHP
Frontend: React, Next.js, Redux Toolkit, HTML5, CSS3, Tailwind CSS, Bootstrap
Backend: FastAPI, Node.js, Express.js, Flask, Django, REST APIs, JWT
Data & Infrastructure: PostgreSQL, MySQL, SQLite, Redis, MinIO, Celery, Docker, Git, GitHub, AWS basics
AI/ML: PyTorch, TensorFlow/Keras, scikit-learn, OpenCV, NLP, LSTM

SELECTED PROJECTS

Software Distribution & Licensing Platform | ***Next.js, FastAPI, PostgreSQL, Redis, MinIO, Celery***

- Built a full-stack platform for software catalogs, purchases, entitlements, device activations, update manifests, and customer/admin dashboards.
- Integrated Razorpay and PayPal flows, signed license responses, offline-use policies, fingerprint-tolerant device checks, background jobs, invoice metadata, and automated tests.

Password Manager | ***Next.js, FastAPI, PostgreSQL, Web Crypto API, Docker***

- Implemented JWT access/refresh authentication and browser-side encryption so plaintext vault secrets are not sent to or stored by the server.
- Designed PostgreSQL-backed vault APIs, secure password hashing, protected routes, and a containerized local development workflow.

AI-First CRM: HCP Interaction Logger | ***React, Redux Toolkit, FastAPI, LangGraph, PostgreSQL***

- Developed a split-screen CRM with structured interaction details, AI chat, REST-backed persistence, and responsive Tailwind components.
- Orchestrated five application tools through LangGraph, connected Groq-powered guidance, and added tests for core backend behavior.

Centralized OTP Authentication Service | ***Node.js, Express.js, Prisma, PostgreSQL, SMTP***

- Built reusable application registration and OTP issue/verify APIs for multiple products, with email delivery and a mock provider for local testing.
- Added admin operations and an automated cleanup worker to manage expired codes and simplify integration across independent applications.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science and Engineering | Chandigarh University | 2020-2024

CERTIFICATIONS

TypeScript Essentials - Infosys Springboard (2022) | Machine Learning - Coursera (2022) | Introduction to Computer Vision - Coursera (2023) | Natural Language Processing - Internshala (2022)
