MD ARIF ALI

Full Stack Software Developer

Chandigarh, India | dev.arifali@gmail.com | +91 9122623002

github.com/Er-Arif | linkedin.com/in/arifali2904 | arifali.me

Profile

Computer Science graduate building web applications with React, Next.js, Python, and Node.js. Project experience spans REST APIs, PostgreSQL data models, payment integrations, authentication, and AI-assisted workflows. Available to join immediately.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL

Web: React, Next.js, Redux Toolkit, Tailwind CSS, HTML, CSS

Backend and data: FastAPI, Node.js, Express, PostgreSQL, Prisma, Redis

Delivery: Docker, Git, GitHub Actions, automated testing, REST APIs

Selected Projects

Software Distribution and Licensing Platform

Next.js, TypeScript, FastAPI, PostgreSQL, Redis, Celery, MinIO

github.com/Er-Arif/software-distribution-platform

- Built software catalog, purchase, entitlement, device activation, and customer/admin workflows across a Next.js frontend and FastAPI backend.
- Integrated Razorpay and PayPal payment flows, signed license responses, update manifests, and background jobs; included automated tests and deployment documentation.

AI CRM Copilot

React, Redux Toolkit, FastAPI, LangGraph, Groq, PostgreSQL

github.com/Er-Arif/ai-crm-copilot

- Built a chat-driven HCP interaction logger with five LangGraph tools for logging, editing, summaries, history retrieval, and follow-up suggestions.
- Validated and normalized model output before database persistence; added retry and fallback handling and preserved unchanged fields during edits.

Centralized OTP Authentication Service

Node.js, Express, Prisma, PostgreSQL, Zod, SMTP

github.com/Er-Arif/otp-auth-service

- Built reusable multi-application OTP issue and verification APIs with app credential validation, hashed OTP storage, and SMTP delivery.
- Implemented JWT access tokens and hashed refresh tokens with shared validation schemas, audit logging, and Docker and CI workflows.

Education

B.E. Computer Science and Engineering | Chandigarh University | 2020-2024

Selected Certifications

AWS Cloud Solutions Architect - Coursera Professional Certificate, AWS (2024)

TypeScript Essentials and Angular - Infosys Springboard (2022)
